

# Great value and features

Wasn't expecting this [double din sat nav dvd player](#) with reversing camera to be anywhere as superb as it is considering the very low price.

Fitted perfectly, great sound and packed full of features. Sat nav is extremely good and can't fault it at all in the couple of weeks I've been using it.

Simple plug and play when you buy a harness adaptor for your make and model of car. Everything worked first time.

Would definitely recommend and a friend has bought the same unit after seeing mine. Think that says it all.

---

# Good replacement head unit

Unit arrived on time and very easy to fit into VW 2014 T5.1 making a perfect fit. Wiring very easy especially if you have ever fitted head unit previously. If you have any uncertainty of installation, you can contact the Pumpkin tech support. All accessories connected easily, rear camera, WiFi, GPS, microphone. Bluetooth to phone and contacts are great etc. Small tech issue with door open display which easily corrected with quick email to tech support and changes made in settings. Excellent head unit.

Presently surprised, with product and customer support

# Android10

PUMPKIN CAR DVD STEREO  
Built in DAB

RAM  
4GB

ROM  
64GB

I decided to reach out to [onlinestore@autopumpkin.com](mailto:onlinestore@autopumpkin.com) to clarify a few potential issues before purchasing, they were able to answer all my questions pre-purchase so I decided to give it a go.

I was happily surprised with user interface, functionality and build quality.

Onboard Google maps is great however it requires a wifi connection from my phone which isn't a problem as phone is in a wireless charging cradle.

Spotify works nicely via bluetooth music however I could just download the app if I wanted full functionality.

Canbus interface is great too as when I reverse the steering wheel interacts with the guidelines so now I've ordered a reversing camera, ignition stays on until I remove the key fully and display shows what door is open (when I first fitted the product the doors were opposite but customer support guided me through what settings needed changing).

All in all it has turned out to exceed expectations as too has customer support both before and after purchase.

The only problem I encountered with this was the antenna

connection, it is a twin unit with both antenna on the one connection, it was easy for me to disassemble one of these and fit another single adaptor as I had one handy, I let support know about this so if your factory unit has 2 separate antenna connections maybe reach out to see if they have a plug and play remedy available by the time you go to buy.
