- Support Bluetooth
- Support 7 Color Button Indicator
- Support 1080p Video
- Support DVR, Reversing camera

I'll give a review of [Pumpkin JY-C0662T](#). The unit has a 6.2″ capacitive touch screen and is flanked by buttons on the two side. The buttons are pretty well laid out and are easily accessible.

Radio: This tuner sounds just as good if not better than my st

ock Toyota radio. There are your basic auto-scan (Scan) and preset buttons for the radio stations. There is a band button (on-screen) that chooses between AM, FM and RDS.

CD/DVD: There's a slide in slot atop the radio for CD/DVD discs. Works as expected when you insert a CD it launches the CD player and plays the music. Basic seek and skip functionality is available and it also supports DVD video playback.

Navigation: The unit comes with GPS, and it functions much as you would expect. You plug in an address and it navigates a route there. You can also use Google Maps / Nav, which works but does require a data connection as the maps and routing are not done on the device, but rather online.

Wifi/ 3G data: There is a Wifi/ 3G cable that supports wifi (built-in) or 3G dongle (extra) to support data capabilities. If you have a phone that supports tethering, you can use it as your wifi data source.

Pandora & Google Apps: Because this is a true [Android car head unit](), it supports Pandora, Spotify and Google Music, and many other popular Google apps from the play store.

Bluetooth Phone & Audio: You can pair the stereo with your bluetooth phone or audio device, once paired you can do the following: Dial out and receive calls hands-free via the Mic. Your phone contacts can be downloaded into the unit.
