

# Customer Review on Pumpkin Android Double Din Car Radio for Chevy Chevrolet GMC

**Installed in 2007 Chevy Avalanche:**

Had this [android double din car radio](#) installed in my 2011 silverado. Looks stock and is way more advanced than radios on new cars. I hit up a WiFi Hotspot to download apps. The [OBDII](#) thing is cool. Crisp picture and sound. Lots of options. Wallpapers are download able from zedge. Bluetooth is simple. Navy system is great.

If you install the 2 inch round speaker thing, cover it with a roll of E tape, it's super loud for the key chime and blinker click.

Update. I purchased another silverado, LTZ eddition, so I ordered one more of these radios. This time I installed it myself. Some flat screwdrivers and a 6mm socket. No cutting and splicing wires. Plug and play. Complete install except for [back up cam](#) in 30 minutes

Nick Fury had this radio in caption America Winter solder. In

the Chevy that had everything.

This [android dvd player](#) was bought to improve my silverado on the resell value. I'm very impressed as it looks like it's a buyers option. The radio has many features, more than I need but for the price I'm not dissatisfied. The radio is basically a plug and play but I had to break alot of plastic in the dash housing to make it fit as well as stuff all the wiring wherever I could. I don't use the camera so I would like to know how to keep the radio on when in reverse, maybe cutting a couple of wires. Overall I'm very happy giving this is the 3rd radio I've installed in my truck and hope this is the last.

This [android head unit](#) is awesome has so many features to choose from for intertarnment in the description it says for 2009 – 2011 gmc acadia with bose but worked awesome on my 2007 gmc acadia slt if your glove box has the code v2p on vehicle sticker this unit will work. Its a simple plug and play and running of acouple cords and antenna stering wheel controls work great.
