

# Why do you need a portable DVD Player ?

Are you tired on having to entertain your kids during the household trip?

Are you folks who are ardently attached to your DVD collections?

Do you have storage issue while use mobile phones or other devices for home entertainment?

If yes, the [portable DVD Player](#) can help you solve all above problems.

It could keep your kids amused for extended periods in household trip.

It offers a flexible viewing experience, supports direct play CD, DVD disks from multi region.

It makes it easy to watch your favorite shows or movies despite that you are traveling.

Compared with mobile phones and tablets, the portable DVD players are designed kids-friendly, players perfect for cars, and devices geared towards people on the move. Some DVD player also comes with two screens (Dual Screen DVD player) to make long car rides less boring for backseat passengers.

There are many kinds of portable DVD players in the market, here we list the main features you need consider when choose the suitable DVD players.

**Long battery life:**

It's better choose the DVD player with battery life capable of lasting at least 3.5 hours up to 4 hours. So you can watch at

least two full movies.

**Screen size:**

The size of the screen determines the price of the portable DVD player. These portable DVD players come in different sizes ranging from 7-inches up to 12.5 inches or more.

**Weight:**

Lighter DVD players are more convenient as they are easier to carry around.

Easy operation: It should be simple to play a DVD so that it's easy for your children to operate the device

**Mounting holders:**

If you are planning to use the DVD Player for car use, the mounting holder allow you to attach the DVD player to the headrest of front seats. Some DVD players come with mounting holder, some are not. If it doesn't come with mounting holder, you can buy it additionally.

**Special features:**

If you need play the blu-ray discs, there are blu-ray portable DVD player for your choice.

If you need wide viewing angles, you can choose portable DVD player with IPS screen, it can ensure vibrant and crystal-clear view from almost any angle.

Sure, the price of blu-ray and IPS portable DVD players are higher than the common ones.

## PUMPKIN CAR STEREO

This is a review of a cheap [Pumpkin head unit](#) with some nicer features like GPS and a decent amount of memory. The unit seems responsive and fast. The screen is not the brightest out of the box and has no obvious knobs to adjust it but if you go

into settings (admittedly quite buried in the menus) then you can get brightness and contrast to be OK for daily driving. The sound output is great for my system (I only have two channels) but not sure it would be great for surround. Everything about this unit is cheap but not cheap. Actually, you do not need a manual – all the pinouts are available in the settings once you power on the unit. The wires are all labeled well (like speaker wires have labels) and the wires on my unit follow standard codes so, for example, my sound was good the first time I hooked everything up. Best of all, when I made a mistake and failed to properly hook up the reverse wire, their tech support spent two days with me by email helping me troubleshoot. It was slow but I have to admire the commitment to the customer.

I just installed the unit so I have no idea if the screen will last or anything to do with longevity. I also think that if you have a few hundred dollars extra and don't want the installation hassle then maybe buy a brand name and have the dealer install it. If money matters though, then this unit is an impressive bargain for the money.
