# DVD player input video from car radio via AV cable

Most [Pumpkin DVD players](#) have AV input and output functions, if your car radio also has AV output functions, everything is easy to solve.

If your car radio and your headrest player are connected via an AV cable, you can simultaneously watch the video on the car radio on the headrest player. Even if you need to use the car radio for navigation and other functions, the video can still be synchronized. Since your car radio can connect to WIFI or the Internet, you can also play online videos such as YouTube videos and synchronize them with your headrest player.

The simple operation brings more practical functional experience:

## Great value and features

**Android 10**  
PX6 CAR RADIO PLAYER

9" SCREEN

RAM  
4GB

ROM  
64GB

Wasn't expecting this [double din sat nav dvd player](#) with reversing camera to be anywhere as superb as it is considering the very low price.

Fitted perfectly, great sound and packed full of features. Sat nav is extremely good and can't fault it at all in the couple of weeks I've been using it.

Simple plug and play when you buy a harness adaptor for your make and model of car. Everything worked first time.

Would definitely recommend and a friend has bought the same unit after seeing mine. Think that says it all.
