Install is easy as long as you have some level of electrical experience and can follow wiring schematics. Wires are all marked and was a very straightforward install.

Touchscreen is extremely responsive and processor seems to be pretty quick since I can transition screens with no lag.

Large user interface and screen that's very intuitive to navigate. Internal amp from stereo is just decent so don't expect the sound you would get from a name brand stereo. Get an external amp with subs if you're looking for quality sound. Although, the sound alone from the unit isn't bad. Just depends on how loud you want the stereo and I'm fine with the out of the box sound.

Tech support is easily accessed, they are knowledgeable and

quick to respond. Well beyond any company I've dealt with in the last 10 years. They have several YouTube videos posted showing how to use several features. Rarely am I impressed with or even recommend anything, but I am impressed and do recommend this car stereo.

Overall, the [android car stereo](#) is worth the money and a great bang for your buck!
