

Kundenmeinung auf Pumpkin Android Autoradio 5.1 Doppel Din-RQ0264E

1. Firma [Autopumpkin](#), ein sehr zuvorkommender Händler, er konnte die Lieferzeit nicht einhalten (3-Tage) teilte dies aber sofort mit neuem Liefertermin (+3Tage) und dem Angebot zur Rückabwicklung mit. Nach der Transaktion hielt der Händler weiter Kontakt und vergewisserte sich, ob alles i.O. ist.

2. Das [Android autoradio](#) in [Doppel din](#), war für meinen [VW Lupo](#) bestimmt. Sämtliche Adapterkabel waren soweit erst einmal dabei. Die Anleitung ist spärlich und als Einbauanleitung ist nur eine Pinbelegung des Hauptanschlusskabels dabei (war wirklich hilfreich). Die Leitungen für das Zubehör ([Kamera](#), Endstufe, etc.) sind gut beschriftet und bedürfen keiner weiteren Beschreibung. Weiterhin wird noch ein Rahmen

mitgeliefert, dessen Sinn sich anfangs nicht erschliesst.

3. [Android und Autoradio](#), das Betriebssystem Lollipop ist aus 2015, Für mich macht es einen guten Eindruck, die Rom und der Launcher gefallen und sind größtenteils gut übersetzt. Der Kaltstart dauert ca. 20-25 sec. wirkte anfangs sehr lange, im Alltagsbetrieb fällt das aber kaum auf. Man kann das Gerät je nach Einstellung bis 2h im Standby halten was auch im Alltag richtig Komfort verschafft. Radioempfang ist mit Phantomspeisung sehr nahe am Originalradio, ich nutze zusätzlich noch DAB ([muss dazu bestellt werden](#)) das läuft prima. Sämtliche mitgelieferten alltags-Apps laufen gut und stabil. W-Lan-Empfang ist ausreichend (soll ja nur im Auto funktionieren) Bluetooth und die Telefonfunktionen mit dem intrigierten Mic. sind intuitiv und gut zu bedienen.

Extreme Musikapps wie z.B. Amazonmusik, laufen prima, man muss nur vorher das Radio ausschalten, sonst doppelt der Ton, beim vorinstallierten Musik- und Videoplayer funktioniert das von selbst.

Mitgeliefert wird auch die Navi-Software I-Go auf SD-Karte, es ist zwar nicht Pro, aber man hat den Vorteil man muss nicht immer im Netz sein, wenn z.B. kein W-Lan vom Handy kommt, oder man sich nicht den [3G-Stick](#) dazu bestellt.

Fazit:

Für mich hat sich das Gerät voll und ganz gelohnt, sicherlich gibt es bessere Geräte am Markt, aber nicht für diesen Preis. Es ist ein vollwertiges Tablett und [Autoradio](#), den CD-Schacht vermisst man in der heutigen Zeit nicht mehr, das Display ist kontrastreich und Glasklar.

Vier Sterne gebe ich trotz des nicht ganz unkomplizierten Einbaus, aber es läuft und macht richtig Spaß, auch gerade durch die Internetanbindung ist es ein völlig neues Radiogefühl, wie sind wir bloß früher klar gekommen !?!

–von Ralf

[Customer Review on Pumpkin Universal Android 5.1 Car GPS Stereo Double Din--R00264](#)

First of all I want to Thank [Pumpkin](#) Customer service. They are really helpful, I had some problem with my order and they have helped me very fast. Thank You!

OVERALL ABOUT PRODUCT

This review will be about 7 inch 1024*600 [Android 5.1 double din Quad Core Car stereo-R00264](#).

There are few [Pumpkin car stereos](#) available, but I chose this one because I like how it looks and also screen resolution was very important to me. Screen quality is very good, touch screen – very responsive and picture quality – amazing. Just what I wanted! This is my second [Android car stereo](#) in my car. I have two Android units in my car – one [Pumpkin double din](#) and another custom made Nexus tablet, one for navigation and another for entertainment.

Quality for the price is very good. Everything works as it should, as my oem radio. When you will start car it will continue to play track, or will jump to same radio station or any app you have used, before you have switched ignition off. Navigation also works very good. I have downloaded google maps offline maps. And also GPS signal is very good, even with GPS antenna hided under dash.

I could not find anything very negative about this [Pumpkin car](#)

[radio](#) yet. BUT little improvements would make this unit more premium:

- Screen feels a bit plastic. – glass screen would make this model more premium – also to look and feel more expensive.
 - Better integrated EQ – easy fix is to download better from Play store.
 - MORE Launcher THEMES – also there many launcher apps in Play store, but not many people know how to install them.
-

FITTING

I have managed to fully fit this unit in my Avensis in 1 hour, but I still have some problems with fascia. I have to make some modifications to make it look nicer. Unit came with all necessary cables, exactly same as you can see in product page pictures. I have bought Steering Stalk Control for my car to connect steering wheel controls to Pumpkin stereo. And everything works perfect. You can also set function for every steering wheel button individually in settings.

Most important FUNCTIONS

- APP resume when you start car.
- Screen brightness changes when you switch light on/off.
- You can set time after how many minutes unit to shut down after ignition switched off.
- Bluetooth hands free calls – It connects automatically when your phone is in range. Call quality is very good even without external mic. You can change to auto answer calls in settings.
- Steering wheel controls – works very good. Not expected to be so easy to connect. Plug and Play. (if you want to connect steering wheel controls just buy Steering Stalk Control instead of wire harness for your car)
- Easy change button LED light colors to match other interior buttons.

Basically it is Android tablet with all the same functions as your home tablet plus it has a lot more special functions. So

far I am very happy with all function and quality. If you have any question or you need any help in fitting, just ask here. I will try to answer ASAP.

Car accessories that can work with this head unit: [headrest auto dvd player](#), [rear view camera](#), [3G dongle](#), [OBD dongle](#), [DVR camera](#) and [other auto accessories](#).

Optional warehouse and logistics:

Orders in our [DE website](#) will be shipped from our German warehouse.Orders in our [UK website](#) will be shipped from our German warehouse.This makes you free of high customs tax.Hongkong warehouse could provide you more auto radios and accessories.

Usually,we ship the orders(car radios and auto accessories) by DHL from Germany to Germany and other European countries.But if you're from UK,it's better to order from our UK website(<http://ift.tt/29hvZcz>)

DAB+ function support:

All of Autopumpkin's Android 5.1 car stereos can support DAB+ function with our [external DAB box](#). If you're living in Europe, this will be your best choice.

Guide before purchase:

1. Please measure the size of your car center dashboard console and make sure our stereo size is suitable for your car.

2. Our universal double din head unit is only with universal ISO harness, so please kindly find the special ISO harness for your car.

3. Please kindly keep us informed if your car has canbus and factory amplifier.

4. Please send us photo of your car's dashboard and tell me your car model and year if you could not confirm whether it will be fit and work on your car perfectly.

AV Output

Many car radios in the market can only spread the DVD video to headrest.

This unit can display almost everything to your [headrests](#), even online Youtube video or the video from USB/SD card .

Professional after-sale service:

We will help you solve every problem patiently and let you experience comfortable service. Help is always on the way. If you ever have a question or a problem with any of Autopumpkin products, please feel free to contact autopumpkin@gmail.com for help.

Guidance before purchase:

1. Please measure the size of your car center dashboard console and make sure our stereo size is suitable for your car.

2. Please kindly keep us informed if your car has CANBUS and factory amplifier.

3. Please send us photo of your car's dashboard and tell me your car model and year if you could not confirm whether it will be fit and work on your car perfectly.

Your Best Trust [Autopumpkin](#)
