

Up to 63% off backup camera

Backup camera is a special type of video camera that is produced specifically for the purpose of making reverse easier and lessening the risk of accidents while parking. It can offer a driver a way to see their blind spot, no matter how dark it is or what the weather is like.

Normally, backup camera has 4 features to increase driving safety, including night vision, view angle, IP rating and park line making. There are wireless and wired backup cameras. Wireless backup camera comes with a wireless camera, which is easier to install. Wired systems are more stable and less prone to interference .

Pumpkin is doing a [backup camera clearance](#) now, the discount is up to 63% off. They have all the features to increase driving safety.
