

How to choose the car stereo to fits my car?

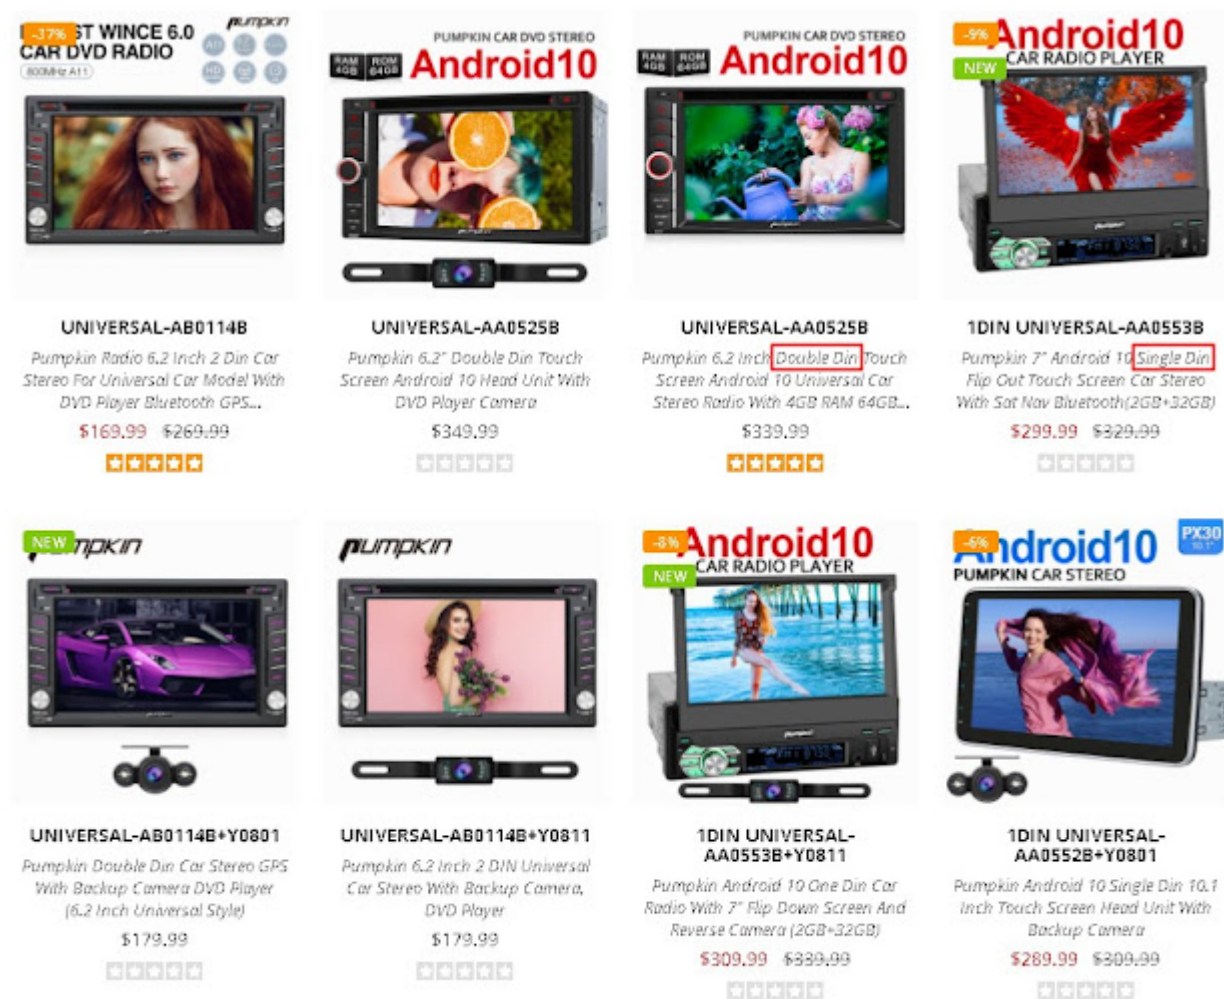

For those of you who feel in the dark about how to go about getting a custom fit car stereo, we can understand. There are thousands of car stereos on the market and you will no doubt be asking yourself the question: **'what car stereo fits my car?'**

Unfortunately, it's often not as straightforward as just picking the best looking one, as most car stereos created are custom fit for specific models. Whilst this is often the case for the majority of car stereos, there are exceptions.

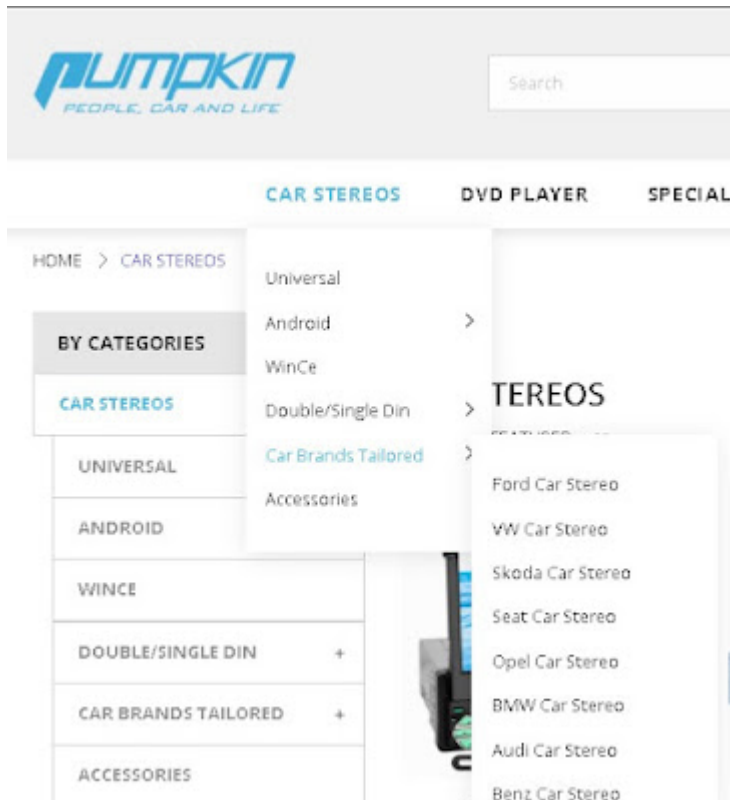

What Universal Car Stereo Fits My Car?

On our website, you'll notice all of our universal fit units are labelled with double DIN or single DIN. It's actually these slots in your vehicle that carry the same measurements worldwide, making them universal in size, therefore we can design car stereos to accommodate.

What Custom Fit Car Stereo Fits My Car

Unless it states 'Universal' , the car stereo you are looking at will be custom fit. To help make finding your perfect upgrade as easy as possible on our website, we have made a separate sub-column.

You may notice that some units contain multiple manufacturer names, like "[VW/SKODA/SEAT CAR STEREO](#)"

Android10

I ordered this [head unit](#) to replace the stock unit in my 2016 FRS. This head unit is leaps better than the touch screen unit from factory.

I spent a long time comparing android units to determine which one was best for me. As having a newer car, I wanted to make sure that I would be able to retain every function on my car.

Quality:

The front glass panel looks very clean, similar to what you'd find in factory cars. Performance is quick (4GB Rom/64GB Ram)

.

Installation:

With the proper adapters, I was able to get my OEM USB, OEM Backup Camera and OEM Subwoofer working. As for the mounting, this head unit isn't your conventional head unit that has a deep back. The backing on this head unit is shallow. For my dash trim, I took the L brackets given and mounted them to my original brackets using wing nuts and bolts, allowing me to adjust how far in and out from the dash the head unit was.

**Keep Your Children
Entertained with a Portable
DVD Player**

On long trips, watching movies makes it more fun and short, especially when you with kids. So, portable DVD player is important for family trips, it not only can entertain your children but you will also have a peaceful drive without having to entertain bored kids.

Portable DVD player can be used everywhere, not only in car, but also home or outdoor. Although taking your movies with you anywhere is simple today, even with the quality of a screen and a suitable player, since there are still things that phones and tablets can not do, like reading a DVD.

Generally, DVD player can run last for 5 to 7 hours after a once full charge. The capacity of the DVD player battery is large nowadays. And it also has a port which can charge from car cigarette.
