## Basic Knowledge of Car DVD Player

- Features: As a replacement for CD player, <u>car DVD player</u> has been upgraded with more functions, such as GPS navig ation and iPod/iPhone input etc. What's more, it's equip ped with display screen and Win CE/ Android intelligent OS, which left a large space to expand and add more functions.
- Specification: The car audio playerwhich equipped with d isplay screen is bigger than the traditional CD player. Currently, the double DIN car DVD player is quite common
- Function: With the rapid development of electronic applic ation technology in recent years, the car stereohas become a "integrated platform". It not only supports Bluetoo th, Wi-fi, but supports DVR and hands-free etc.
- Input: Generally speaking, CD/DVD, FM and DAB is the way to input audio and video. But nowadays, car audio player

can read and play various audio, video and document files through USB/AUX/SD card and Bluetooth.

- Output: Choices for output include audio signal and RCA.

  To transfer the signal to DSP processor, few stereos wou
  ld also support optical and coaxial output.
- Touch screen: More and more indash car DVD players are equipped with the HD touch scre en. Therefore, the sensitivity and response speed of tou ch screen are important standards to measure the units'
- Sound quality: Most Android car head unit is equipped with single DVD pick up head, which don't perform as well as special CD pick up head. Thus, we'll recommend users to buy DSP audio processor additionally.
