

# FAQ for Android Car Stereo Amplifier

1. How can I populate my address book's contacts into the [Android car stereo universal](#)?

**A:** For downloading the address book's contacts from your phone to the radio: firstly, you need to pair your phone with the Android head unit, then please click the contacts icon and search your contacts like the following picture:

Please make sure that you use the built-in contacts in your phone, otherwise it can not be searched. Also, if your smartphone runs Android 5.0 OS or above, please allow all the submissions in your phone when the stereo searches the contacts.

2. After installing the car DVD player, I can't hear any sound through the speakers or the Bluetooth. The music is attenuated but no phone or GPS instructions can be heard. Is there a hidden menu to give more volume to GPS and Bluetooth?

**A:** Normally, we don't have hidden menu to give more volume. An

d for setting the GPS app sound ( we pre-installed the IGO free copy version ), please check the setting below:

You can re-install the IGO app from our SD card to check whether it would

help or not. Besides, please enter the settings=>GPS, make sure that you turn on the **GPS monitoring**. You can turn up the GPS mixing ratio so that the GPS sound would be louder.

As for the Bluetooth issue, if you make the phone call via Bluetooth, please well close your car windows and doors, then turn the volume of both your phone and the head unit to the middle level. You can also enter the factory setting ( the password is 126 ), and check the BT setting.

3.In case of the extra mic, how can I increase the volume ? I don't find any possibility to adjust the mic volume in the car audio player.

**A:** Please use the extra mic and increase the car radio's volume.

4.I'm not able to get torque to recognize that Bluetooth is on . Therefore, I can't connect Bluetooth to the OBD. I can connect to it from my phone but not from the [Pumpkin Car Head Unit](#). Is there something I can do to get this to work ?

**A:** For pairing the OBDII, you need to know the protocol of your car and select the correct protocol in "Torque". Followings are the whole instruction:

□Please enter "Bluetooth "application, then set the pairing code of the radio to the same one as the OBDII scanner'Generally , it would be 0000 or 1234. ( please try both )

□Then please open the built-in torque, choose the OBDII scanner MAC address in the application setting and choose your car protocol.

5.How do I change the default music app ?

**A:** Since the [car DVD player Bluetooth](#) is based on Android 4.4, you can download other music player apps like Spotify in the built-in play store ( need Wifi or other Internet source ) and install it on the head unit.

## Basic Knowledge of Car DVD Player

- **Features:** As a replacement for CD player, [car DVD player](#) has been upgraded with more functions, such as GPS navigation and iPod/iPhone input etc. What's more, it's equipped with display screen and Win CE/ Android intelligent OS, which left a large space to expand and add more functions.
- **Specification:** The car audio player which equipped with display screen is bigger than the traditional CD player. Currently, the double DIN car DVD player is quite common.
- **Function:** With the rapid development of electronic application technology in recent years, the car stereo has become a "integrated platform". It not only supports Bluetooth, Wi-fi, but supports DVR and hands-free etc.
- **Input:** Generally speaking, CD/DVD, FM and DAB is the way to input audio and video. But nowadays, car audio player can read and play various audio, video and document files through USB/AUX/SD card and Bluetooth.
- **Output:** Choices for output include audio signal and RCA. To transfer the signal to DSP processor, few stereos would

ld also support optical and coaxial output.

- **Touch screen:** More and more in-dash car DVD players are equipped with the HD touch screen. Therefore, the sensitivity and response speed of touch screen are important standards to measure the units'
- **Sound quality:** Most [Android car head unit](#) is equipped with single DVD pick up head, which don't perform as well as special CD pick up head. Thus, we'll recommend users to buy DSP audio processor additionally.

## FAQ for Pumpkin KD-C0223 Android 4.4 Car Stereo

**Q1.** Does it fit in a Nissan Xtrail 2011 ?

**A:**Sorry, it doesn't. There is another Pumpkin Car Stereo which fits Nissan Xtrail 2011:<http://www.autopumpkin.com/pure-android-id-4-2-twin-din-universal-nissan-car-dvd-gps-navigation-with-6-2-inch-lcd-hd-capacitive-touch-screen-3g-wifi-bluetooth-support-obd2.html>

**Q2.**Does the Android operating system allow calls and txts from Google Hangouts and Google voice ?

**A:**Sorry, the builtin mic of the [Car DVD Player](#) is specifically designed for the Bluetooth phone call.

**Q3.**It says OBD2, but how does that work? Does it read engine error codes ?

**A:**Here is an instruction video about it : <https://www.youtube.com/watch?v=XZ9Cw-xvkv8&feature=youtu.be&list=UU5idhlXZfjcSV9KDp-gcC0w>

**Q4.**Can you make /receive calls while using the navigation ?

**A:**Yes. A banner comes on at the bottom of the screen no matter what app you're in. It has a few buttons, one is for answer, another is for ignore.

**Q5.**Can this be tethered to a cellphone via Bluetooth for internet access ?

**A:**Sorry, it can't. But you can share your cellphone as Wifi hotspot, then use the radio to connect to the wifi signal from your cellphone and use the internet.

**Q6.**What is the unlock code to get to the advanced options ?

**A:**You can find it in the manual, which is 126.

**Q7.**Can you control high and low pass filters with this unit?

**A:**There is an equalizer in the music program. You can get apps that might better fit your needs as this [head unit](#) is running Android system.

**Q8.** Possible to wire this up without buying a harness ? Where does each of wires go ? I have a fuse holder to battery and RCA to amplifiers if possible.

**A:** The wiring is made to new non-American standard. New cars may support it but old cars need a harness to hook it up.

**Q9.** Does it fit for Nissan Versa 2009 ?

**A:** Actually, it fits a standard double DIN opening.

**Q10.** Does this unit come with a GPS antenna ?

**A:** Yes, it's magnetic and you are supposed to mount it to a piece of metal for better reception. It will use the piece of metal as a kind of extended antenna. I put mine inside the dash while some people put it in the outside of the car, and it seems to work fine.

**Q11.** Does the Bluetooth work with other accessories normally supported by Android ? Esp Valentine 1 radar detector.

**A:** Yes, it supports any and all via Bluetooth devices.

**Q12.** How do Google Maps and Waze look ? Do they rotate and look adequate ? I drive a lot for work and I primarily want this for the mapping.

**A:** That part of the car stereo works perfect and the GPS lock is quick and accurate.

**Q13.** Can you browse the Internet with tethering and play music from YouTube ?

**A:** There are three ways to browse the Internet: buying a 3G dongle, tethering your phone, or having a Wifi network to connect to. You can do whatever you like in these three ways.

**Q14.** Will it fit a 2004 F250 Truck ?

**A:**This is a standard 110\*180mm size [Android car stereo](#) which is slightly bigger than US double DIN size. Therefore, it's a hassle trying to get an stereo installation adapter (such as Metra ) to get it fit inside the opening. But if you're able to cut/ trim a bit with tools, then you're good to go. It will definitely fits, but may not look professionally install if the installation kit isn't not cut clearly.

**Q15.**Does the Bluetooth support more than one connection ?

**A:**The Bluetooth can support different connection, but it supports only one at a time.

**Q16.**Are the button lights changeable, i.e., can I change it to red ?

**A:**The button lights are changeable. Actually, there are seven colors to for you to choose.

**Q17.**Can you use Bluetooth to tether to a cellphone for Internet connectivity ?

**A:**Sorry, you can't connect the Internet via Bluetooth. But you can share the Wifi hotspots of your phone and search it with this [car audio](#).
