

Kundenmeinung auf Pumpkin 6.2 Zoll Autoradio 2 Din GPS Android 5.1-R00267E

Ich habe das [Pumpkin Android 5.1](#) Autoradio in Verbindung mit dem [HSDPA Surfstick](#) bestellt.

Zunächst zur Verpackung und Versand:

Das Paket war binnen 2 Tage in der Packstation zum abholen bereit. Das Gerät war ordentlich und stabil verpackt.

Zum Einbau:

Ich fahre einen Golf IV worin man ein [Doppel din Autoradio](#) einbauen kann.

Ich habe mit zusätzlich noch einen Einbaurahmen bestellt, da das Autoradio 2 din android

sonst lose in der Mittelkonsole "rumhängt". Dank Iso-Anschlüsse war es überhaupt kein Problem alles einwandfrei zu verkabeln.

Zum Gerät:

Tolles doppel din Autoradio. Super schnell und flüssig. Einzig

das booten dauert ca. 15 Sekunden. Dies ist aber nicht tragisch.

Der Radioempfang ist erstklassig. Ich bekomme Sender rein, die ich vorher mit meinem Autoradio (Pioneer DEH-X5600BT) nicht empfangen konnte, und das zum größten Teil störungsfrei.

Ich habe mir die Navigon Telekom Version als Navi-App heruntergeladen, da man dort die Karte herunterladen konnte. Denn die 3G Verbindung bricht andauernd ab. Und wenn mal 3G angezeigt wird, passiert garnichts! Das ist das einzige was mich etwas stört. Die liegt aber an den Stick. Deswegen nur 4 Sterne (für das Radio selbst, gibt es von mir 5 Sterne).

Mein Fazit:

Sehr gutes Preis-Leistungsverhältnis. Schnelles und einfach zu bedienendes Autoradio dvd gps mit spitzenmäßigem Empfang. Würde das Radio gerne wieder kaufen. Klar gibt es sicher bessere, aber für den Preis absolut zu empfehlen.

Customer Review on Pumpkin Wince 6.0 Car DVD Player GPS 1 Din

Bought the WinCE 6.0 Car DVD GPS Player with [reversing camera](#), really good product, stereo was easy to connect and set up, camera works great and cable was long enough for my T4 van. Radio has good reception and everything does what it says

on the tin. very happy with the stereo overall, at this price you cant go wrong.

-by J Brittain

So I bought this [Pumpkin](#) head unit for my 1980s classic sports car. Looks great has a clean look to it and reminiscent of "Becker Mexico" (in my imagination) so looks better than the original 1980s stereo.

[Reversing camera](#) was easy to fit but a little confusing to connect But nothing got damaged during my efforts (but I am relatively competent)

Sat nav is pretty good and so is reversing camera – the two main reasons for wanting to install this for me

You can set up your own wall papers – you need to store them on the Nav card not the card in the spare SD slot

Couldn't get the boot up screen to work at all – never seems to need it... (don't know what that's all about, there is no boot up time)

Quality and finish pretty good.

You can set the screen angle to 1 of 3 positions – you need to cycle through them with a button. It then remembers. Trouble is when first powered up it defaults to vertical not tilt forward so if you have an installation that leans the screen back so that it hits some part of the dashboard you have to slide the unit in after you've set up the screen angle forward and every time it then loses power you have to repeat. not normally a problem but something to be aware of – doesn't seem to mash things when it happens the screen just closes after it hits the dash
