

Customer Review on Pumpkin Android Double Din Car Radio for Chevy Chevrolet GMC

Installed in 2007 Chevy Avalanche:

Had this [android double din car radio](#) installed in my 2011 silverado. Looks stock and is way more advanced than radios on new cars. I hit up a WiFi Hotspot to download apps. The [OBDII](#) thing is cool. Crisp picture and sound. Lots of options. Wallpapers are download able from zedge. Bluetooth is simple. Navy system is great.

If you install the 2 inch round speaker thing, cover it with a roll of E tape, it's super loud for the key chime and blinker click.

Update. I purchased another silverado, LTZ eddition, so I ordered one more of these radios. This time I installed it myself. Some flat screwdrivers and a 6mm socket. No cutting and splicing wires. Plug and play. Complete install except for [back up cam](#) in 30 minutes

Nick Fury had this radio in caption America Winter solder. In

the Chevy that had everything.

– by Haelix

This [android dvd player](#) was bought to improve my silverado on the resell value. I'm very impressed as it looks like it's a buyers option. The radio has many features, more than I need but for the price I'm not dissatisfied. The radio is basically a plug and play but I had to break alot of plastic in the dash housing to make it fit as well as stuff all the wiring wherever I could. I don't use the camera so I would like to know how to keep the radio on when in reverse, maybe cutting a couple of wires. Overall I'm very happy giving this is the 3rd radio I've installed in my truck and hope this is the last.

–by Creig Denton

This [android head unit](#) is awesome has so many features to choose from for intertarnment in the description it says for 2009 – 2011 gmc acadia with bose but worked awesome on my 2007 gmc acadia slt if your glove box has the code v2p on vehicle sticker this unit will work. Its a simple plug and play and running of acouple cords and antenna stering wheel controls work great.

Customer review of Pumpkin Android 5.1 Car GPS Stereo for VW

A few months after [Pumpkin Android 5.1 Autoradios](#)' Release, customers like these adorable head unit very much and they also have something to say, let's check out together:
Installed in **VW Touren fra 14**:

I was very hesitant to buy this [android head unit](#) based on one review, but then I found a Youtube video with a live demo.

In short: it's a cool [android 5.1 car stereo double din for VW](#). It's kind of like having a tablet in your car, with a few add-ons like radio and a DVD player. I also have a backup camera hooked-up (I could use the pre-installed one instead of having to use theirs). Apps install like on any other Android system. So far I've installed Pandora radio and Waze. There is

a built-in GPS, but if you have a hotspot function on your smartphone, you can use Google Maps or Waze as well.

The installation was pretty straightforward in my **2011 Tiguan SE**. The supplied wire harness fits perfectly, and I was able to reuse the existing radio antenna, GPS antenna, and backup camera.

The lines on the backup camera indicating where you're going will only work once the system has fully booted. The camera itself works immediately.

–by S

For those that said the cd/DVD player of this [android 5.1 autoradio gps for vw](#) will not accept a cd/DVD all the way, you need to remove two screws on top of the unit prior to install.

PROS:

- Perfect fit in **2010 Jetta**, pure Android, Quad Core processor
- VW wiring harness included, just plug and play
- steering wheel controls work when the included CANBUS adapter is installed. Plugs into the harness. But you need to program the controls by selecting steering from the main menu then selecting MODE. You then press which function you want to program such as ""volume up"" on the touch screen then press the ""volume up"" button on the steering wheel for the unit to learn which buttons do what. When complete, press the OK/save icon. I got volume, next/back, and call answer/end buttons to work.
- GPS appears to work. Finds my location quickly but I haven't tried the interface for navigation yet. I always use my phone for nav so might not use this capability. I did notice that you can store gas mileage information in the GPS section which is handy.

[Pumpkin Android 5.1 Mercedes Benz Navigation DVD Player Released!](#)

After [Autopumpkin](#) releasing more and more [android 5.1 car gps stereos](#) including [universal double din android 5.1 car gps radio](#) and specific android 5.1 car head units designed for special car models, many people come to ask if there's [Android 5.1 Mercedes Benz Navigation DVD Player](#), so today we'll introduce you guys the [android 5.1 car head unit for Benz](#).

Details for [Android 5.1.1 lollipop car DVD Player](#) for Mercedes Benz:

Description:

As always, the unit is equipped with Android 5.1.1 Lollipop Rockchip PX3 Cortex A9 Quad Core 1.6GHz operating system, incredible 1024*600 Resolution, large screen, built-in WIFI, Bluetooth, GPS Navigation. It supports SD Card, USB, OBD2, Reverse Camera, Airplay Mirror Link, 3G, WIFI and so on. Autopumpkin android 5.1 car gps stereo for Mercedes Benz is absolutely ideal for driving. Drivers feel like having another android phone which is installed in the car. The Specific CANBUS adapter for Benz makes the steering wheel control work as well.

It can fit:

The following car model and year are for reference, please make sure your original car radio has the same shape as our unit.

Benz A class W169 2004-2012

Benz W639 2006-2012

Benz B class W245 2005-2012

Mercedes-Benz Viano 2006-2012

Mercedes-Benz Vito 2006-2012

Benz W906 2006-2012

Note: If your car has Fiber Optic amplifier or other amplifier built-in, then your car has digital sound processor, this stereo DO NOT support that, you may need manually connect speakers cable directly to the car speakers to make it work, please ask technician to modify this if you do not know how to do!

GPS

Map Storage Mode: Micro SD Card

Voice Guidance: Yes (Include most Languages)

3D Map: Yes

POI Display: Yes

GPS Communication Port: Auto Search and connect

AV Output

Many car radios in the market can only spread the DVD video to [headrest](#).

This unit can display almost everything to your headrests, even the online Youtube video and the video from USB/SD card .

Steering Wheel Control

Change the track, volume, etc. conveniently without taking your hands off the steering wheel, which makes your driving much safer.

DAB+ Digital Radio ([Extra DAB+ box](#) required)

Digital Audio Broadcasting allows you multi-regional music with your local well-known and also new channels. CD sound quality and noise-free in excellent transmission make DAB Radio a special experience in the vehicle. Permanent increase in channels and expansion of the station area soon make DAB accessible to most of Europe.

(If interested , please buy the DAB+ box from us)

OBD2 (Extra OBD device required)

Compatible: Most of [Bluetooth type ELM327 OBD2 scanner](#)

(Search Y0004 on our website)

Compatible Application: Torque
