

# Customer Review on Pumpkin 6.2 Inch Android 5.1 Car GPS Stereo 2 Din

[Pumpkin Android 5.1 Car GPS Stereo 2 Din](#)

First of all I want to Thank [Pumpkin](#) Customer service. They are really helpful, I had some problem with my order and they have helped me very fast. Thank You!

## OVERALL ABOUT PRODUCT

Screen quality is very good, touch screen – very responsive and picture quality – amazing. Just what I wanted! This is my second Android car stereo in my car. I have two Android units in my car – one Pumpkin double din and another custom made Nexus tablet, one for navigation and another for entertainment.

Quality for the price is very good. Everything works as it should, as my oem radio. When you will start car it will continue to play track, or will jump to same radio station or any app you have used, before you have switched ignition off. Navigation also works very good. I have downloaded google maps offline maps. And also GPS signal is very good, even with GPS antenna hided under dash.

I could not find anything very negative about this Pumpkin car radio yet. BUT little improvements would make this unit more premium:

- Screen feels a bit plastic. – glass screen would make this model more premium – also to look and feel more expensive.

- Better integrated EQ – easy fix is to download better from Play store.

- MORE Launcher THEMES – also there many launcher apps in Play store, but not many people know how to install them.

---

## FITTING

I have managed to fully fit this unit in my Avensis in 1 hour, but I still have some problems with fascia. I have to make some modifications to make it look nicer. Unit came with all necessary cables, exactly same as you can see in product page pictures. I have bought Steering Stalk Control for my car to connect steering wheel controls to Pumpkin stereo. And everything works perfect. You can also set function for every steering wheel button individually in settings.

---

## Most important FUNCTIONS

- APP resume when you start car.
- Screen brightness changes when you switch light on/off.
- You can set time after how many minutes unit to shut down after ignition switched off.
- Bluetooth hands free calls – It connects automatically when your phone is in range. Call quality is very good even without external mic. You can change to auto answer calls in settings.
- Steering wheel controls – works very good. Not expected to be so easy to connect. Plug and Play. ( if you want to connect steering wheel controls just buy Steering Stalk Control instead of wire harness for your car)
- Easy change button LED light colors to match other interior buttons.
