## <u>Customer Review on Pumpkin</u> <u>Android Double Din Car Radio</u> <u>for Chevy Chevrolet GMC</u>

Installed in 2007 Chevy Avalanche:

Had this <u>android double din car radio</u> installed in my 2011 silverado. Looks stock and is way more advanced than radios on new cars. I hit up a WiFi Hotspot to download apps. The <u>OBDII</u> thing is cool. Crisp picture and sound. Lots of options. Wallpapers are download able from zedge. Bluetooth is simple. Navy system is great.

If you install the 2 inch round speaker thing, cover it with a roll of E tape, it's super loud for the key chime and blinker click.

Update. I purchased another silverado, LTZ eddition, so I ordered one more of these radios. This time I installed it myself. Some flat screwdrivers and a 6mm socket. No cutting and splicing wires. Plug and play. Complete install except for back up cam in 30 minutes

Nick Fury had this radio in caption America Winter solder. In

the Chevy that had everything.

This <u>android dvd player</u> was bought to improve my silverado on the resell value. I'm very impressed as it looks like it's a buyers option. The radio has many features, more than I need but for the price I'm not dissatisfied. The radio is basically a plug and play but I had to break alot of plastic in the dash housing to make it fit as well as stuff all the wiring wherever I could. I don't use the camera so I would like to know how to keep the radio on when in reverse, maybe cutting a couple of wires. Overall I'm very happy giving this is the 3rd radio I've installed in my truck and hope this is the last.

This android head unit is awsome has so many features to choose from for intertanment in the description it says for 2009 — 2011 gmc acadia with bose but worked awsome on my 2007 gmc acadia slt if your glove box has the code v2p on vehicle sticker this unit will work. Its a simple plug and play and running of acouple cords and antenna stering wheel controls work great.
