

# Greatest receiver by far

Replacing my old receiver with this [Pumpkin 7 inch 2 Din Octa-Core Android Car Radio](#). Wiring was a breeze as I only had a few wires to solder. At first glance it is very well made and solid. Came with all the connectors as specified. After the install, it turned on immediately with no delay. The screen was clear and responsive, it has multiple different menu options and it functions much like a tablet. The settings are similar to any Android phone setup. The wifi antenna picks up all nearby signals. GPS on/offline is great, but you need to install the initial maps. Sound clarity is great, having an EQ is a plus. The external mic is a bit awkward to mount anywhere so I left my old one on. This receiver is far superior than my previous in all aspects. One bummer was that there is an IR sensor but no remote was provided, kind of weird as there was no offer of remote online either. Check out pics.

Install Note: If your car had a 6.2" DVD player previously, the dimensions on this receiver will be much larger. As the console bezel on my 06 WRX fit a 6.2 screen perfectly. I had to trim down the bezel to fit this receiver.
