

How to Choose the correct TV Box to Use on Pumpkin Car GPS Head Unit

To choose the correct TV box to use together with our [Pumpkin](#) car gps radio, first you need to know which digital TV standard is applied in your country? DVB-T, ATSC or ISDB?

There are mainly 3 digital TV standards in the world:

1. DVB-T: Mainly apply in Europe, Australia, India, etc. So if you're living in these countries, the TV box you should use the [Y0005](#) in our website: <http://ift.tt/2eWA1GY>
2. ATSC: Mainly apply in the US, Canada, Mexico, Korea, etc. If you're living in these countries, the TV box you should order is the [Y0007](#) in our website: <http://ift.tt/2eNvdpM>
3. ISDB: Mainly apply in Japan, Brazil, Peru and some other South American countries.
