

How to upgrade your pumpkin android head unit from 4.2 to 4.4 kitkat? (or flash your head unit)

Recently, some friends of us said: I saw that the new devices have Android 4.4. you can update it? or Can this device be upgraded to later versions of Android as they become available? How?

My answer is : If you purchased from us and your car stereo is android system, yes it can be updated to android 4.4 (Kitkat).

First of all, please back up your important files before update it.

Example (for KD dual-core series):

Please download and get the update file from <https://mega.co.nz/#!/YUFUXBYQ!sBLzETgn10tcpeFG5675RE295rSy4a18aZ2FJucPkWk> It can fit dual-core head units which the SKU start from **KD** like this one : [KD-C0224](#). Then copy the file you get to an empty sd card (notes: without folder), **(If you get a package from the link, please unzip it first)**

After that please turn off the unit and **insert the sd card to the GPS slot**, turn on the unit again to update.

This <https://mega.co.nz/#!JYc3GBpa!pb0UVJj3ggpdWNLGJetZCUsbZS zme6Tsc62rRnuEU> is specially for the quad-core product **KD-C0234** , **KD-C1122**

This link <https://mega.nz/#!wYE2zAAb!lfohdALwx2gWRnJ7Jp9eiuV0I7qEQM TZZ7siX6W8JuI> is for the Android product that SKU start from **GS** to update android 4.4, it can be used to update like this one SKU: [GS-C0219](#).

This link https://mega.co.nz/#!0Y8UHLDR!UCJ_4shRet8TaN9wmI7qMqBQcaWxQGbu rPNKZAHiseE is for the Android product that SKU start from **JY** to update android 4.4, it can be used to update like this one SKU: [JY-C0227](#). (resolution 800*400)

This link https://mega.nz/#!8YEVVC4a!4TXxrr3cya4Q63GkrLyvJ46Puc1pJy _fnELglwJdlZE is for the Android product that SKU start from **JY** to update android 4.4 , it can be used to update like this one SKU: [JY-C0344](#). (resolution 1024*600)

And here's the video instruction for updating

Any assistance, please contact me any time
