

# Customer Review for Pumpkin KD-C0234 Universal 6.2" HD Touchscreen Android 4.4 Quad-core Double Din Car Stereo

Great head unit ([KD-C0234](#)) for the price. Can't find anything like this from the name brand companies like Pioneer, Sony, Kenwood, etc. Pumpkin is way ahead of their competition.

By Dan J

## Pros:

There are lots of great features, these are a few of the better ones.

- **Android 4.4** operating system. (just the fact that it's an Android head unit is awesome)

- **Built-in Bluetooth and WiFi.** Being a **quad-core** tablet I get all of the advantages of my Android smart phone that I previously using in my car (for music, surf on the internet etc) via Bluetooth, built right into the dash of my car. I can add a back and/or front facing camera, a wireless hot-spot, rear screens for the DVD to entertain the younger family members, tethering to my phone by hot-spot for Bluetooth, the potential is only limited by the accessories available in the marketplace.
- **GPS** works great. I have used the stock app iGo, Google maps and Waze (my preferred GPS app). All work quite well.
- Has everything and more than the most expensive name brand car radios. All of the features of the unit **work as advertised**, but the expansion possibilities are fantastic. Android is definitely the future of [car head units](#)!
- Since I can have my **ECU logging software** (torque and BtSsm) running on there without needing anything extra hooked up, it's very awesome. Makes for a very clean setup.

## Cons:

Don't get discouraged by this list of Cons, this head unit has a lot going for it.

- Music player app doesn't display ID3 tags, only display file name.
- Unable to fast-forward or change the position of the song being played.
- The front bezel is slightly larger (in that it's not recessed like American double din units), so I had to modify my dash kit just slightly.

## Summary:

This is a really cool head unit, it's quick, very responsive and has many many great features; but it needs some software

flaws fixed and few hardware issues fixed. If you can deal with the flaws it has, you will have a lot of fun with this. As time goes, I hope that some of these software issues get resolved because I really like this head unit.
