

Tips on Cleaning an In-Dash Ford Android 4.4 Car Stereo

Customers should keep their in-dash Ford Android 4.4 car stereo clean and free of dust and fingerprints. To do so, they need a dry, lint-free cloth and water. Follow the following four-step process to clean the [in-dash Ford Android 4.4 car stereo](#).

▪ Step 1:

For light cleaning, use a dry, lint-free cloth to remove any dust or fingerprints.

▪ Step 2:

For a more thorough cleaning, moisten a lint-free cloth with water.

▪ Step 3:

Clean hard to remove dirt by scrubbing.

▪ Step 4:

Allow the head unit face plate to dry.

Fingerprints and dirt can get inside the CD and DVD slots, causing potential harm to an [in-dash Android 4.4 car stereo](#). Keeping an in-dash Android 4.4 car stereo clean can extend it's life, saving customers both time and money.

[Customer Review for Pumpkin KD-C1107 BMW E46 Series 7 Inch 1 Din Android 4.4 Head Unit](#)

I had never heard of [this unit](#) before and found it on a random search through Amazon. I figured for the price and it was worth a shot, since the Dynavin is still a good bit more expensive... I am very impressed by it!

--By **Corban Dallas**

▪ Installation

Installation was silly easy, I got it done in a couple of hours and that was because I wanted to hide wires for the GPS antenna and Bluetooth microphone. If you're less picky than me, you could get it done in a half hour.

▪ Screen, buttons and knobs

The buttons and knobs are very well built, the finish is slightly more glossy than the stock business radio of the E46, though I suspect part of that is due to aging of the stock materials. The screen is bright and clear and **the touchscreen is very responsive**, the colors and sharpness are great.

▪ Audio quality

I was worried that the audio quality would be worse than the stock CD player, but it's definitely not when using equal mediums (CDs, iPod, radio, etc). But when streaming Bluetooth, it's not the best. Most people probably wouldn't notice the difference (my friends didn't), but if you're like me and like clear audio, you'll want to stick to CDs, SD cards or an iPod.

▪ GPS navigation system

I love the navigation which **displays the speed limit of the road you're on** as well as warning you if you're speeding. **It**

can also display any nearby gas stations, hotels and many other things and lets you choose which one you can see or not see.

▪ App installation

The unit comes with a .apk installer app so that you can install any app from the Google Play Store from an SD card, or anywhere else you could find a .apk app. It also has the Google Play Store app installed on it, so if you use your phone as a mobile hotspot for the on-board WiFi or use a 3G data card in your unit, you can download apps directly from the store. The included apps are pretty good. My only gripe with the pre-installed music player is that there is no shuffle button, that seems like a huge oversight, otherwise it works well and the equalizer presets are pretty good, as in the custom mapping option that it gives you.

▪ Conclusion

All in all, I'm very happy with this unit and would highly recommend it to anyone. It's made the interior of my E46 feel much more updated and new. In fact, my girlfriend just bought a new Ford with the "My Ford Touch" option and she agrees that the nav screen in my E46 is better.

Pumpkin KD-C0532 Unboxing Ford Mondeo/S- max/Focus/Galaxy 7" Android 4.4 Double Din Car Stereo

Any **Ford Mondeo/S-max/Focus/Galaxy** owner will go crazy for this awesomely and well thought-out car stereo ([KD-C0532](#)) that fits perfectly into the car's **2 DIN** dashboard slot. This car stereo is packed with specifications and even have the latest **Android 4.4** operating system to allow the user to have full control. With an Android OS, the user can access the Google Play Store to download and install apps that will keep them entertained. Thanks **Benjamin Päper** for sharing these awesome KD-C0532 pictures, enjoy!

Ford 7 Inch Android 4.4 Double Din Car Stereo ([KD-C0532](#))
Unboxing

Unboxing time! The first thing in the box--a letter from [Autopumpkin](#).

The car stereo is properly packed in soft foam with the ISO cables on top.

At the bottom of the box, we have iPod cables, Remote Control and GPS antenna etc.

The car stereo itself.

Here's some pics after installation:

It fits perfectly in my Ford Mondeo.

Play music from my USB flash.

The Torque app. It can Support OBD 2.

AM/FM Radio

AV-IN for Reverse Camera

All features of this stereo works as advertised, so I highly recommend it as a replacement for Ford car.
