

Pumpkin Android 10 Ford Series Car Stereos

Pumpkin is focused on Android 10 car stereos now. The Android 10 car stereos cover from single din to double din, universal to brand-matched, 6 inches to 10 inches. Here, we are going to talk about three kinds of brand-matched Android 10 car stereos, which fit for the Ford car models. They are all fit for Ford Mondeo, S-max, Focus and Galaxy.

These three kinds of Android 10 Ford car stereos support online/offline GPS navigation, phone mirroring, steering wheel control, Bluetooth hands-free calling, RDS/RBDS radio. They have also supported backup rear-view camera, OBDII scanner, DAB+, Android Auto/ Apple CarPlay, but these functions need the extra devices. (All these extra devices can be found in Pumpkin online store)

[Android 10 Car Radio - Does what you need without the Brand Name](#)

I bought this [Android 10 car stereo](#) two weeks ago for my KIA Sportage 2005, then I thought it was Worth every penny.

Spotify is great, Youtube is awesome and Google maps and Waze are all great. Almost like having a tablet in your car. P.S. yes, you need your phone's hotspot or some sort of internet connection to stream. you CAN download stuff to the unit like Spotify, youtube videos, etc. so you'll always have your content or put them on an SD card.

Excellent once I figured out I needed to set the country before the timezones. I added an SSD drive to hold a ton of media files and also a rearview camera. It switches automatically to the camera and back without missing a beat.

Also, LOVE that plex works on this.
