

Good replacement head unit

[Unit](#) arrived on time and very easy to fit into VW 2014 T5.1 making a perfect fit. Wiring very easy especially if you have ever fitted head unit previously. If you have any uncertainty of installation, you can contact the Pumpkin tech support. All accessories connected easily, rear camera, WiFi, GPS, microphone. Bluetooth to phone and contacts are great etc. Small tech issue with door open display which easily corrected with quick email to tech support and changes made in settings. Excellent [head unit](#).

Good item and great customer service

PUMPKIN CAR STEREO

This is a review of a cheap [Pumpkin head unit](#) with some nicer features like GPS and a decent amount of memory. The unit seems responsive and fast. The screen is not the brightest out of the box and has no obvious knobs to adjust it but if you go into settings (admittedly quite buried in the menus) then you can get brightness and contrast to be OK for daily driving. The sound output is great for my system (I only have two channels) but not sure it would be great for surround. Everything about this unit is cheap but not cheap. Actually, you do not need a manual – all the pinouts are available in the settings once you power on the unit. The wires are all

labeled well (like speaker wires have labels) and the wires on my unit follow standard codes so, for example, my sound was good the first time I hooked everything up. Best of all, when I made a mistake and failed to properly hook up the reverse wire, their tech support spent two days with me by email helping me troubleshoot. It was slow but I have to admire the commitment to the customer.

I just installed the unit so I have no idea if the screen will last or anything to do with longevity. I also think that if you have a few hundred dollars extra and don't want the installation hassle then maybe buy a brand name and have the dealer install it. If money matters though, then this unit is an impressive bargain for the money.
