# □Customer Review for Pumpkin□KD-C0713 Mazda 3 Android 4.4 Double Din 7" HD Touchscreen Car Stereo

By **Steve** 

I installed <u>this stereo</u> in my 09 Mazda 3. I say "stereo" but it really is so much more. It's more like an entertainment center for my car, because it has changed the whole feel of travel. Simply put, I love this!

### GPS

Great GPS included with accurate maps and still can use video outputs, so DVDs play to rear monitors for kiddos in the back seat.

### - APP

All the apps I've tried work flawlessly and switching between them is very fast.

## Quality

Not much else I can say other than if you are debating on this unit, take my word for it, you will be very pleased with the build quality and ease of install.

## - Audio

I should also mention the audio playback is well above stock car stereo sound and everything is crisp and clear.

## Customer Service

On a side note, I contacted the seller to ask a question about SD card playback and was pleased to get response almost immediately. It seems that customer service is top notch as well.
