

Best Pumpkin Customer Service

The product is as good as advertised. The product is not the only story behind how amazing was this experience. I lost the manual after it arrived, I got in contact with the company and they sent an e-replacement manual right away. After I broke the faceplate that serves as a trim to the radio. I contacted them again to see if I could buy another faceplate and they sent one free of charge. Not only the product is amazing, but their customer service is superb. I have them as my go to vendor for other things.

Perfect for my Honda Civic 2007

I bought a [Pumpkin 2 Din 7 inch Android car radio](#) several weeks ago. It is perfect for my Honda Civic 2007.

The sound quality isn't the best I've heard, but still very good. The touch screen is instantaneous, and I love that you can download apps to it. The wifi and GPS have worked flawlessly so far. I've used both my home wifi in the driveway and my phone as a mobile hotspot. The video quality isn't as sharp as my phone but far exceeded my expectations. I've made several Bluetooth calls and asked the person on the other end how it sounded, and they couldn't tell I was on Bluetooth. I ordered the pumpkin backup cam which also works awesome, but the wiring instructions were garbage. My only issue so far is that I seem to have to connect the Bluetooth every time I get in. There is an automatic connect function, but it doesn't seem to quite work. It's quick and easy to do from the head unit, so not that big of a deal. I may just not have figured it out yet. Very happy with my purchase and highly recommend!
