It fits and work perfectly on my [audi](#) a4 b6.

–by Rusu

Couldn't be happier with this [Pumpkin](#) unit

After a few months of living with it I feel like I'm in a position to give a good review

Connectivity for this unit is good [android](#) iPhone all work well after you have configured your device

Bluetooth works well and all my steering wheel controls that I have configured work well

Sat navigation, using waze works well

Only thing I have yet to work out is how to remove widgets grrrr apart from that buy one you can't go wrong.

Its an amazing stereo. it really look nice on the B6.
But i've to say that the costumer service its the big up i'm
giving here. They are very professional and concerned about
your satisfation.

Thanks
