

Customer review on Pumpkin 2 Din 7" Android 9.0 Head Unit for Ford

Bought and fitted it into my son's 2013 Ford Mondeo Titanium X 1.6T. All works really well and looks fantastic.

Couple of points of note.

1. The car had the Sony DAB stereo which has 2 aerial feeds. You need a Fakra to DIN adapter to connect the aerial to the new head unit.

2. I fitted the external mic that came with the kit. I ran the cable under the drivers side of the dash and up the A-Pillar. It's just about long enough to place the mic at head height on the pillar but I would have preferred to run it up to the roof where it would be less obvious. I suggest buying a 1m 3.5mm

jack extension lead if you want to do the same.

3. Shows radio station in the main dash screen.

4. I initially fitted the GPS aerial under the dash as I had done on a similar unit in my other son's Focus, but the signal was quite low. It would have probably worked but around town it may have been a problem so I ran the cable under the passenger side of the dash, up the A-pillar and placed it on top of the Dash in the corner under the screen. Signal significantly better. I only say this to stop you having to take the unit out again after putting everything back like I did!!

5. It came with 2 wiring harnesses. I used the one with the Canbus box attached to it and all works as expected. I'm not sure what would have happened had I fitted the other one.

6. I didn't fit a camera. The car has rear sensors that were audible only. The Pumpkin unit now adds a radar to the screen and the beeping sounds coming from the unit instead of the car. My only issue, which is still to be reviewed is that the graphic and beeping doesn't stop when you come out of reverse and start driving forward. It seems odd to me but my son says it was like that with the factory unit and he presses the park sensor buttons. He's happy but I'll wait a few days until he's used it properly to decide.

7. Unit is very responsive and the Google maps work really well.

8. Phone is good, contacts all downloaded fine.

Overall it really freshens up the car making the interior much more modern.

Very pleased overall.

The special function of car stereo-- DVD Player

Most car stereos on the market have the DVD player function, these car stereos have a DVD drive so that these devices can simultaneously play CDs and DVDs. It allows watching a movie on the integrated screen without an Internet connection. So this kind of car stereo is essential for a long journey and it can let you take a rest.

Car stereos with DVD drive also have external connections for monitors, with which screens on the back of the headrests can be supplied with moving pictures. In this way, they make it possible to offer passengers in the back seat a cinema while driving, as has long been the norm on planes. Especially for long vacation trips with children, this can soothe and quiet them.

[Pumpkin car stereo](#) also has external connections such as AV output, USB / SD card slot for the display. Through the external connections, the moving images can be transferred to the screen on the headrest. In this way, they make it possible to make a cinema available to the back seat passengers while driving. If your long vacation goes together with children,

you will surely need this function.

To Approach the Car DVD Player for Fun

Are you considering buying a [car DVD player for your vehicle](#)? The first thing is you need to figure out where you want to mount it. There are several kinds of the players alternatively. The features of the system are different from each other. If you are trying to choose some function-oriented device, the single din and double din DVD player are on the top of your list, which are installed in the dashboard of the front seat. About the entertainment-oriented ones, the sun visor, flip down, and headrest DVD are under your consideration. The first one is to create some fun for the front seats', and the second type is usually for big vehicles, like SUVs, trucks, vans, and so on. The last one is spotted in the headrest of the front seats.

In recent years, the car DVD player is becoming more and more popular. It is almost the only entertainment device you can have in the car. If you have unruly kids and passengers in your vehicle, it is the best equipment for them to have some fun. Time will be killed effectively, and you can concentrate to drive. It assembles many features that you may need. For instance, the one which is installed in the dashboard of the front, it often contains the complete features which are entertaining and useful as well. It plays videos in various forms, like discs and memory sticks. The navigation system is also available. A reversing camera helps you park the vehicle. Moreover, the radio won't be missed. As far as I am concerned, this kind of player is the best one for driver. To passengers,

the other players are much more suitable.

Before purchasing a car DVD, do some research and make a list to figure out which one you prefer to match your needs. The price can be different as well. It all depends on the quality and functions. The car entertainment can cost a lot of money, if you are a wise consumer, you don't want to spend any penny meaningless. Information can be acquired on the internet. Remember to compare different prices of the players. Buying the device can be very simple, because you can go to the online shop and click what you want. In that case, you have to make sure what the retailer is going to deliver to you. About the installation, they want to do it themselves, or opt for the aftermarket professional store. The decision affects the budget, too.

No matter what option you make, the most important thing is that the [car DVD player](#) should meet your needs. In addition, the right one is going to be stylish and fashionable. Your taste will impress others. it can be very useful for those families which have kids. And they will be occupied, instead of disturbing the driver. If you are

7" Touchscreen Quad Core 1.6GHz Android 5.1 DVD Player

going to travel with your friends, they will also enjoy the equipment. It won't be boring on the way to the destination.
