

How to Fix These Frequent Issues of Android Car Stereo?

Q1: I set up the date to be the GPS date. The GPS show the right hour, but on [car stereo](#)'s main menu the time is 1 hour different. The time zone is correct. Could you help me to have the right time ?

Please don't use local time, forward or backward to adjust the time zone. You can adjust the time in Setting.

Q2: When playing music from the SD card, the player is not moving to the next song or is getting stock after few songs. Is issues with app ? Is any update for that?

Please use the small storage SD card, preferably less than 32G B. Did you have some songs for lossless formats or other formats ? Please use the flash disk or MP3 player.

Q3: Why the GPS of [Android car DVD player](#) can't get signal ?

About the GPS signal, please check the following issues:

- GPS antenna didn't connect well with the GPS slot;
- GPS is put to the wrong place, please put it to a good reception place;
- Bad weather or the building around would affect the reception of the GPS, please try it another day or another place for good reception.

<https://www.dropbox.com/s/9pdbohtmzlxlv9g/affect%20satellites%20reception.jpg?m=>

- The wire which connect the GPS slot and the mainboard is loose, please open the car stereo and check inside.

Q4: Why the media unit of [car DVD player](#) is dead ?

Have you tried to reset the head unit? If no, please reset the unit by using a needle to press the "RST" for more than 2 seconds. Before doing this, please make sure that both your car and the head unit are turned on.

If you've already done above and found nothing help, please remove the car DVD player and wait for half a day, then power on and check again.

However, if it's still nothing improve, please reinstall the system according to the instruction below:

<http://www.news.autopumpkin.com/how-to-upgrade-your-android-head-unit-from-4-2-to-4-4-kitkat/>

Q5: Why the [car head unit](#)'s steering wheel buttons don't work ?

Here is the instruction for how to set the steering wheel buttons:

Steering wheel control connections instruction.

Enter into the steering wheel control:

Please click the "Settings" icon to enter into the system setup interface on the screen, then,dragging option bar up and down to find the settings option of "How to learn steering wheel control " .

The procedure for steering wheel control settings :

1. Clicking the picture of "  " to clean up(empty) everything.
2. On the steering wheel, pressing(holding) this button which you will need to setting(set).
3. Click these buttons on the touch screen, which functions are corresponding with these buttons(keys) accordingly.
4. When these buttons turn red , it means that these buttons have been set successfully.
5. Repeat 2-4 key actions to complete all learning .Please correctly connect the steering wheel control lines ,

please see the following pictures:Connecting two AD lines with the positive pole of steering wheel control line, connecting the GND with negative pole.

Q6: The radio tuner of [Android car stereo](#) is not working any more. It can open but is not detecting any signal.

- Please check whether you had connected the radio antenna tightly.
- Check the wire on the ISO cable ANT-CONT, and connect it with the blue wire on the radio ant

enna to power for radio.

- Please enter the factory setup in the unit and check the radio area, the password is 126.
- When using the radio, please turn off AF and TA option first, and then search the radio station.

Q7: The navigation button is not working, but the navigation software works fine when I open from the touch screen, maybe I have a bad OS version. Can you send me the link for the latest one for that [car head unit](#) ?

Please back up your important files before update it. First of all, please download the installation package from

https://mega.co.nz/#!AY9TQTba!rce-Dn5dJyfTiPSm_NCRsJ6UjxMh_HaZNfraBf7tUe0

Then unzip it and copy all files to an empty SD card (notes: without folder).

After that please turn off the unit and insert the SD card to GPS slot. Last but not least, turn on the unit again to update .

Q8: The power light of [car stereo](#) is illuminated, but the OBD2 adapter's light don't light up. What should I do ?

About the OBD, the normal whole instruction is :

- Please enter our "Bluetooth" application, then set the pairing code of the radio to the same one as the OBDII scanner' Generally it would be 0000 or 1234.(please try both)
- Then please open the built-in torque, choose the OBDII scanner MAC address in the application setting and choose your car protocol.
- At last, please do it step by step on this video:

FAQ for Pumpkin Car Stereo

KD-C0223+Y0801 (2)

Q14 : Wiring: where to hook up the loose wires on the bundle: 2 browns (keys), 1 orange (illumination), 1 orange with stripe (brake), 1 pink (reverse)?

A : This Depends on your [cars radio](#) harness. If these aren't present, you'll need to extend the wires and tap into wherever they are on your car. Keys are for the resistive steering wheel controls. Illumination and reverse are self explanatory, and available in the harnesses under the dash. Brake (and often reverse) you sometimes have to route over to the handbrake area which may require a pretty long wire extension. Get a manual for your car or hire a professional if you are uncomfortable.

Q15 : Does this car stereo come with Android 4.2 or 4.4? If it has 4.2, can we upgrade?

A : Yes, we have Android 4.4; click [here](#) to upgrade.

Q16 : Why is there a TV button on the [head unit](#) if it does not support TV?

A : This unit can support TV, but it needs extra fees to this service in our factory.

Q17 : Hi, the unit works perfectly. However, upon startup the button lights turn on for 3 seconds and then off. How do I get them to turn on and stay on?

A : You should cut the ILL(orange one) cable and then connect to ACC(red one) cable.

Q18 : Does this unit have aTV? What is the TV button for?

A : Sorry that this radio can not play TV. If you really want, our factory has customized service, but it is a little expensive.

Q19 : Does it have an external microphone jack?

A : This [car head unit](#) has external mic as gift.

Q20 : How long it will take to boot up time from the time car starts till this unit is usable?

A : About 12 -15 seconds.

Q21 : Will this unit be able to use bluetooth OBD2 and bluetooth hands free calling at the same time?

A : You are only able to use bluetooth OBD2 and bluetooth hands free calling separately, not the same time.

Q22: Does it use Google Navigation, a third party navigation or both?

A : we will send you a free map SD card... you can also download a map such as Google, Waze via wifi or hotspot.

Q23 : What's the password for "extra settings" ? Can't find in manual. Already tried 7890, 123456, 1111, 0000.

A : Please try 126.

Q24 : Will this unit work with the axcess aswc-1 steering wheel adapter?

A : Yes, it will. Connect both steering wheel wires from the unit to the brown wire on the harness.

Q25 : Does the unit allow an external mic for handsfree?

A : This [car stereo](#) allows an external mic for handsfree.

Q26 : Does Igo receive traffic if you supply the unit with Internet access (thru 3g or wifi?)

A : You can download Google map via wifi or 3G, then Google map can receive traffic.

Q27 : Is it compatible with JBL system on Toyota Rav4?

A : Sorry, it isn't compatible with JBL system on Toyota Rav4.

Q28 : Which GPS app does this [car DVD Player](#) use?

A : We will send you a beta map card.

Q28 : Is there a way to get this unit to play music randomly? The remote has a RND button but nothing happens when it is pressed.

A : Use a different player. You can use Fusion and it allows random play without any ads, full album art, lyrics and downloads of comparable mp3's. It also has a 10 or 12 band equalizer. To get Fusion to shuffle your entire collection, you have to open it to songs instead of albums or artists and just click the shuffle key once you've picked your beginning song.

[How to choose the car gps navigation system](#)

Now, [in-dash dvd player](#) navigation system basically became a car driving auxiliary tool. You are not familiar with roads and how to arrived its destination if you drove up to the strange city. This time you should need a car gps navigation to accompany you. Used car navigation can greatly improve the efficiency, and even help us to ensure the safety of driving.

Car gps navigation systems currently has many kinds, The use of hardware is mainly divided into independent automotive navigation systems and mobile phone navigation systems.

This paper mainly discusses is independent automotive navigation. The independent car navigator have roughly from built in operating system in use is: Win CE system and Android syatem.

For in car navigation systems on the aftermarket of the most popular is the Win CE system. The use of Windows CE, not only can stably navigation, also support the market for most major navigation software, mature and stable. However , the windows CE software expansibility is not good. In addition to professional navigation software, other entertainment is not abundant. (though many independent GPS has built in rich software, such as game, music player and electronic reader).

If you want to buy a stable and mature navigator, then select the windows CE system is a quite good choice.

For android navigation system, Except the navigation outside, also can be installed at present many android application software. Installed software to play games, listen to music and even the internet.

Using android system, GPS system has been the equivalent of a tablet computer. If you value GPS navigation scalability(for example, want to install the game and other software), then choose android system using the navigator is the good choice.

No matter which type of navigation you want, to test the actual positioning accuracy. General good navigation performance in half minite and positioning accuracy.
