

Affordable infotainment system

Honestly for the price its a [great unit](#) that will do it all, but you do get what you pay for so the price point is the reason for my 5 star rating.

This is a sleek and easy to install unit. As long as you have the basic tools for electronics you will be able to install easy. Great GPS as well helped me on a 3 hour trip today.

But what is most important about any product is the service you get after. Pumpkin was very quick to resolve a few slight problems I had. Their employee Chloe, that i worked with, was very polite, prompt and took care of my problems. I was very very surprised with how well the interaction went. So what I am saying is, If your on the fence about this unit, buy with confidence, because if you were to have a problem you will have great support to assist you. Would recommend the product and the company. A++ in my book. Well done.

[Installation] Pumpkin 7" Single Din Bluetooth Car Stereo with Flip Screen Navigation install on Volvo XC70 year 2002

Here, we show how to install the 7-inch single din flip-out screen car radio in the Volvo XC70 year 2002. This is a universal car radio, it integrates with the RDS radio, Bluetooth BT hands-free calling and music streaming, GPS navigation, phone mirror-link, steering wheel control, Wi-Fi, and compatible with external USB, SD card, the Android Auto/Apple CarPlay USB Dongle, DAB+ digital radio box, OBDII car scanner device, and backup camera. The display car radio is an Android 9.0, but Pumpkin has already released the Android 10 version car radio now. You can search on the Pumpkin official website.

Customer review on Pumpkin 7" Android 10 Single Din Bluetooth Flip Out Car Stereo

Android 10 CAR RADIO PLAYER

Fits great into my 2001 Porsche Boxster. It's fast, responsive, and sounds great. It has way more features than I expected. I paired the unit with some generic steering wheel controls without needing any additional adapters. The only issue with the unit is that you are limited in how you can tether your phone to share mobile data. This unit relies exclusively on WIFI / mobile hot spots, which is fine as long as you are charging your phone while driving, otherwise, mobile hot spots usually drain phone batteries quickly. I

would love to see USB tether and/or Bluetooth tethering, but PUMPKIN does not currently support those features.

The touch screen is instantaneous, and I love that you can download apps to it. The wifi and GPS have worked flawlessly so far. I've used both my home wifi in the driveway and my phone as a mobile hotspot. I've made several Bluetooth calls and asked the person on the other end how it sounded, and they couldn't tell I was on Bluetooth. I ordered the pumpkin backup cam which also works awesome.
