<u>How to Troubleshoot Common</u> <u>Problems with a Double Din</u> <u>Navigation System</u>

For the high GPS navigation technology, more and more people c hoose to install their own <u>double din navigation</u> systems. Inev itably, when you run the GPS navigation system, there may be s ome problems. Some issues need to be resolved by Professionals , but most of problems you can resolve yourself.

Steps

1. The GPS navigation unit doesn't start up/ could not open the GPS navigation unit.

□The key isn't turned to ACC or IGNITION position.

— Turn the vehicle key to ACC or IGNITION position.

[]The power cable has not been connected to the GPS navigation unit.

— Connect the power cable to the GPS navigation unit.

□Blown fuse behind the GPS navigation unit or in the radio system.

— Replace the blown fuse with a fuse of the same amps.

□Flat battery. — Replace or charge up the flat battery. The remote controller is running out of battery power. — Change the remote control battery. 2.No sound output/could not hear voice/no voice. □Speaker wires are not connected to the GPS navigation unit. — Make sure that the speaker wires are properly connected to both the GPS navigation unit and the speakers. □The GPS navigation unit is on "Mute". - Press "Mute" key or VOLUME (+/-) key. □The volume is excessively low. — Press VOLUME(+) key. □Front/Rear speaker; Left/Right speaker. - Press the remote control panel "OSD" or adjust the "Option" "Audio". 3. Touch panel is not calibrated. □Press "calibration" to calibrate the monitor again. — "Menu" -> "Option" -> "System" -> "calibration" 4.No response from the touch screen. □Possible that the system is still processing the previous task given to it. --- If there's still no response after a long period time, please contact the after-sale service department to have this issue looked at. 5.Can not play DVD. □Disc loaded inaccurately. Please load the disc with the graphic side showing towards the windscreen. □Damaged disc. — Please clean the disc before reloading it again. □Disc does not play at all. — Please check the disc format before playing it. 6.No image from the reversing camera.

□Reversing camera is installed, but it is not plugged into the <u>Android car stereo</u>.

— Connect the reverse camera to the double din stereo, then press the "CDD" button on the remote controller, if it still does not work, please contact your local product distributor/reseller.

7.No GPS reception.
GPS antenna is not plugged in.
— Plug in the GPS antenna.
[No GPS reception in the current location.
— Please contact your nearest product distributor/reseller for further assistance.
