

Best Android Auto head unit for 2021 - Pumpkin

Android10
PUMPKIN CAR STEREO

PX30
10.1"

Install is easy as long as you have some level of electrical experience and can follow wiring schematics. Wires are all marked and was a very straightforward install.

Touchscreen is extremely responsive and processor seems to be pretty quick since I can transition screens with no lag.

Large user interface and screen that's very intuitive to navigate. Internal amp from stereo is just decent so don't expect the sound you would get from a name brand stereo. Get an external amp with subs if you're looking for quality sound. Although, the sound alone from the unit isn't bad. Just depends on how loud you want the stereo and I'm fine with the out of the box sound.

Tech support is easily accessed, they are knowledgeable and

quick to respond. Well beyond any company I've dealt with in the last 10 years. They have several YouTube videos posted showing how to use several features. Rarely am I impressed with or even recommend anything, but I am impressed and do recommend this car stereo.

Overall, the [android car stereo](#) is worth the money and a great bang for your buck!

Best Bang For Buck

I ordered this [head unit](#) to replace the stock unit in my 2016 FRS. This head unit is leaps better than the touch screen unit from factory.

I spent a long time comparing android units to determine which one was best for me. As having a newer car, I wanted to make sure that I would be able to retain every function on my car.

Quality:

The front glass panel looks very clean, similar to what you'd find in factory cars. Performance is quick (4GB Rom/64GB Ram)

.

Installation:

With the proper adapters, I was able to get my OEM USB, OEM Backup Camera and OEM Subwoofer working. As for the mounting, this head unit isn't your conventional head unit that has a deep back. The backing on this head unit is shallow. For my dash trim, I took the L brackets given and mounted them to my original brackets using wing nuts and bolts, allowing me to adjust how far in and out from the dash the head unit was.

PUMPKIN 1 DIN Android 10 Autoradio install on BMW E36
