

2016 Christmas Promotion on Android 5.1 Car Stereo Radio with GPS

The banner features a light blue background with a decorative border at the top consisting of green pine trees and red snowflakes. The text "SUPER CAR STEREO" is written in large, bold, red capital letters. Below it, "ANDROID CAR RADIO" is written in green capital letters, flanked by two red reindeer icons. The main content area displays four product cards, each with a car stereo unit and a festive Christmas-themed screen image. Each card includes the product name, a list of compatible car models, and pricing information with a "Buy Now" button.

**[Customer Review on Pumpkin 7
inch Android 5.1 Lollipop Car
Radio Stereo for Opel
Vauxhall](#)**

Arrived earlier than expected works great in my 2008 [Opel](#) Corsa easy to fit comes with all you need. No maps is the only draw back add DAB and your set to go I also added a revers camera from one I had and it looks and works great now im the envy of my friends. great when parked up I can watch DVDs off my flash drive.

– by David Nolan

It is amazing what this [Pumpkin](#) car radio can do for the price and so far (2 months in) no major issues. At first I thought it was draining the car battery but it turned out to be a faulty car battery that was probably pushed over the edge by the extra power requirements of this device. A new battery sorted the issue and would probably have needed replacing soon anyway. I haven't managed to set the time correctly but I am now within an hour so am happy with that! The wi-fi receiver is a bit weak and I struggle to get a signal from our house but not really the device's fault. All other features are great – bluetooth links up seamlessly with phones, and sound quality is pretty good.

–by Mike

I have had this unit for over 2 weeks now installed in a 2011 Corsa. It was very easy to fit even though the wiring looks daunting at first. I am using the IGo Navigation app and it seems to work fine with the unit. Tried a few other navigation apps (HERE, CoPilot etc) but found they didn't quite work right. If I was to have a complaint about this product it would be that it doesn't work with my Ipod properly. When the wire is pushed in firmly I can't get any music at all but if the wire is loosely connected to the Ipod music is played fine. Does seem to be a problem alot of people have had as I have Googled it. Other than that Sat Nav, Bluetooth and other features work good. I don't have a [reverse cam](#) attached.

Customer Review on Pumpkin 2GB RAM Android 5.1 Car GPS DVD Player 2 Din

[Pumpkin 2GB RAM Android 5.1 Car GPS Radio 2 Din](#)

This [Android 5.1](#) Car GPS Radio is just released on November. I

bought it because this has more features than the previous [Pumpkin](#) car radio.

The radio is very well-finished and you can use all Android apps. What's interesting is the Android Auto 2.0 APP. This app IS designed for the car by Google and works very well on this radio (see photo).

The sound is very good, also the active subwoofer works good. All offline and online navigation software (TomTom, NAVIGON, Google maps) work very well and music or radio can be heard at the same time.

All offline and online navigation software (TomTom, NAVIGON, Google maps) work very well and can be heard at the same time music or radio.

I've tried out equipment several brands in (Sony/pioneer /...) and was never satisfied.

According to the warranty card, there are 18 months warranty.

For the very low price, you get a top new radio and a very good support (many new cars have still navigation without life traffic)

Features:

- +Fast Boot (Starts in about 2 seconds – see video)
- +Integrated 3G modem
- +Better Wi-Fi/3G antenna
- +2 GB Memory
- +Android 5.1
- +PlayStore
- +APK Installer
- +MicroSD and 3 USB ports (two rear and one front)
