

# Camry navigation stereo review

## Android 10

Put this [Pumpkin Android 10 double din car stereo](#) in a Camry. Wasn't sure on some of the instillation. Sent email to the support that they have and they replied quickly. They even followed up to make sure everything was working properly. (I was the one who didn't thoroughly read the instructions which caused me to be unsure, my answer was right in front of my face in black and white). The unit is user friendly and has awesome features. Can't wait to see what the next thing these guys come up with. Will recommend to anyone. The screen is clear and responds well!
