# Dual Screen Portable DVD player & Twin DVD player

Dual screen DVD player is common used now, but do you know dual screen DVD player can be divided into two types? It can be divided into dual screen portable DVD player and twin DVD player. Although they seem similar, each DVD player offers a very different set up to the other and has different advantages and disadvantages. These two are ideal for in-car.

## **Dual Screen Portable DVD player**

- Share the same movie on both screens
- The slave player can not accept DVD discs and cannot play another different DVD movie.
- Slave player can be powered by main player
- Lower price than twin DVD player

EASY TO SHARE A DVD

WATCH 2 DIFFERENT DVDS

## Twin DVD player

- Share the same movie on both screens
- Watch different movies on each screens
- The two screens can be split up from each other and used totally independently to the other
- Offers a much more flexible solution
- More expensive than dual screen portable DVD player

When considering which portable DVD player set up to buy the main influencing factor is always going to be the part you value most. For example, the twin DVD player able to meet age and gender gap between kids. But if your kids are similar ages and are happy to watch the same movie, then a dual screen portable DVD player may well be the ideal solution.
