

Best Bang For Buck

I ordered this [head unit](#) to replace the stock unit in my 2016 FRS. This head unit is leaps better than the touch screen unit from factory.

I spent a long time comparing android units to determine which one was best for me. As having a newer car, I wanted to make sure that I would be able to retain every function on my car.

Quality:

The front glass panel looks very clean, similar to what you'd find in factory cars. Performance is quick (4GB Rom/64GB Ram)

.

Installation:

With the proper adapters, I was able to get my OEM USB, OEM Backup Camera and OEM Subwoofer working. As for the mounting, this head unit isn't your conventional head unit that has a deep back. The backing on this head unit is shallow. For my dash trim, I took the L brackets given and mounted them to my original brackets using wing nuts and bolts, allowing me to adjust how far in and out from the dash the head unit was.

Great value and features

Wasn't expecting this [double din sat nav dvd player](#) with reversing camera to be anywhere as superb as it is considering the very low price.

Fitted perfectly, great sound and packed full of features. Sat nav is extremely good and can't fault it at all in the couple of weeks I've been using it.

Simple plug and play when you buy a harness adaptor for your make and model of car. Everything worked first time.

Would definitely recommend and a friend has bought the same unit after seeing mine. Think that says it all.

PUMPKIN 1 DIN Android 10 Autoradio install on BMW E36
