

# Pretty wild Android head unit

It's a neat little unit, with a few quirks, it has insanely fast boot time, I wish the contrast was a bit better and slightly glares. I am going to try and put a piece of anti-glare film on it to see if that helps.

I would like a widget to turn on the backup camera without being in reverse. I have the following working:

- 1) GPS with voice assist using Google maps works well.
- 2) Google browser with voice assist works well.
- 3) Hot spot using iPhone working well. (I can download, I can mirror, I can browse with Chrome+Google.)
- 4) FM/AM works well.
- 5) OBDII working via BT using the Torque app.
- 6) TPMS working via USB.
- 7) Both reverse and park signals are working turning on the

backup camera.

I'm still getting to know the product and might update later as I get more experience with this [Pumpkin Android 10 Car Stereo 7" Double Din Universal type\( PX6, 4+64G\)](#).
