Excellent value for the price of the Pumpkin single din 7 inch touchscreen android car radio

Android 10 CAR RADIO PLAYER

Ok, so I pulled the trigger on this based on price point, and the review by the guy below with the Land Rover – I have an old BMW that's a Sunday cruiser and really just wanted to update the head unit to have Bluetooth, nothing more – for the price of a regular old Kenwood deck, I picked this up figuring the extra features, if they're as good as promised, would be a bonus.

Unit arrived FAST, and was well packaged. Included GPS antenna, mounting bracket, a rear view camera, single din bracket and removal tools. Wiring was simple, following the schematic on the unit itself, and the notes in other reviews about making sure the blue antenna wire gets jumped to power.

Interface out of the box is good, but I chose to run a car launcher, as have some others – I like the home screen better than the stock one. App selection from the google play store

is great, and there's plenty of memory to accommodate whatever you want. Even the stock offline gps is pretty solid. I'm including a few screenshots of the stock home screen, the launcher, and an app or two.

I've kicked the tires on all the features of this unit since having it and am incredibly impressed at the functionality for the price point. It performs pretty darn close to my other android units in other cars that cost much more. If you're looking for a modern single din solution for an older retrofit, or a budget friendly alternative to the Alpines, Kenwoods, and Sonys, check this out. It's a great value.

Lastly, kudos to the seller for offering EXCELLENT customer service – I expected there would be little to no support for the questions that came up about the product but was pleasantly surprised when any issues I had were resolved within a day and to my satisfaction. Five stars for a great seller who stands behind their merchandise.

[Installation] Pumpkin 7" Single Din Bluetooth Car Stereo with Flip Screen

Navigation install on Volvo XC70 year 2002

Here, we show how to install the 7-inch single din flip-out screen car radio in the Volvo XC70 year 2002. This is a universal car radio, it integrates with the RDS radio, Bluetooth BT hands-free calling and music streaming, GPS navigation, phone mirror-link, steering wheel control, Wi-Fi, and compatible with external USB, SD card, the Android Auto/Apple CarPlay USB Dongle, DAB+ digital radio box, OBDII car scanner device, and backup camera. The display car radio is an Android 9.0, but Pumpkin has already released the Android 10 version car radio now. You can search on the Pumpkin official website.
