Key Features:

- . Support Win CE System
- . CPU Frequency 800MHz
- . Support Can-bus
- . Support 3G
- . Support 1080P Video
- . Support DVR

1) regarding the 3G modem: Can you tell me, how to setup such a connection, I could not find any hints in the device menu.

Normally you need a 3G dongle.then just plug and play,please make sure you can buy a 3G Internet WCDMA SIM card from your local, because our item can only support that

2) In the app drawer, there is a shortcut for "Instructions",

but when I click this icon, it just says "No file found". Can you tell me where to get such a file or maybe instructions at all?

you tell us the SKU of this product, so we can give the solution

3) Can you tell me the maximum capacity of a microSD card, which is inserted into the device?

Normally ,we suggest you use the SD card under 32GB.

4) Do you know how to improve the Wifi connectivity range? Currently it is really bad, except I put a device right into the car. I would like to synchronize things, by driving my car in front of the window, where the wifi router is located behind.

And please close the wifi power saving mode,it mean close the "wifi optimization".(setting --advanced wifi--wifi optimization)
