## Key Features:

- . Support Win CE System
- . CPU Frequency 800MHz
- . Support Can-bus
- . Support 3G
- . Support 1080P Video
- . Support DVR

1) regarding the 3G modem: Can you tell me, how to setup such a connection, I could not find any hints in the device menu.

**Normally you need a 3G dongle.then just plug and play,please make sure you can buy a 3G Internet WCDMA SIM card from your local, because our item can only support that**

2) In the app drawer, there is a shortcut for "Instructions",

but when I click this icon, it just says "No file found". Can you tell me where to get such a file or maybe instructions at all?

**you tell us the SKU of this product, so we can give the solution**

3) Can you tell me the maximum capacity of a microSD card, which is inserted into the device?

**Normally ,we suggest you use the SD card under 32GB.**

4) Do you know how to improve the Wifi connectivity range? Currently it is really bad, except I put a device right into the car. I would like to synchronize things, by driving my car in front of the window, where the wifi router is located behind.

**And please close the wifi power saving mode,it mean close the "wifi optimization".(setting --advanced wifi--wifi optimization)**
