

# Three Ways to Avoid Car DVD Player Tragedy Knocking Down Your Door

With entertainment permeate our everyday lives and the non-stop technology advancements, Car DVD players have found way to our most common transportation- automobile. The good result is that we will never worry about how to kill the boring time when on road, the bad result is you and your family are more dangerous than before. The in-car entertainments systems such as motorized DVD players have joined talking on mobile phones and text messaging as potentially dangerous distractions.

Now the question is not why they cause risks to our lives, but what we can do to avoid car tragedy happening on us.

**Choose the right Car DVD player Types according to your needs and buying capacity.**

There are mainly four car DVD/monitors on the markets now – In-dash DVDs(in-car DVDs), Sun Visor DVDs, Roof mount DVDs(flip down DVDs) and Head rest Monitors(back seat monitors). In-dash DVDs that to be installed into car dashboard are driver's good friends by providing GPS navigation, car reverse safety camera and surround sound entertainment. Sun visor DVDs are designed to entertain front seat passenger while they can also block some direct sunlight when you are heading toward the sun. Roof mount DVDs are now the most popular car entertainments devices as they can keep the whole atmosphere delightful. With advanced features like horizontal turning screen, IR remote control and hi-fi

surround sound, they are going to become a must-have to modern cars. Head rest monitors can work together with in-dash DVD players to keep the back seat passengers entertained. Of course some models have much more useful functions like AM/FM tuner and, TV receiver and antenna and game play.

### **Use authentic installation agents and install the required safety measurements.**

Most in-dash DVD player manufacturers have made certain safety measurements . Certain measurements include DVD won't work until emergency brake is on or car is parked. Though there are full list of street car accessory shop that will help you to bypass these safety measurements when install [in-car DVDs](#), you should always choose those legitimate store and make sure all required safety measurements are there. Wrong placements of car DVD players is another reason of causing problem. Sun visor DVDs should not be placed in front of driver as its name may suggest. What the consequence if the driver is gawking at what's being shown while he/she should be more careful on roads. Roof mount DVDs also should avoid to catch the attentions of drivers. if possible, use headphones.

Keep in mind that lives are the most important things over any other.

Everyday thousands of car accidents happen, a large part of that are merely caused by ignoring of basic rules and driving ethics. Actually endangering not just your life and even other's lives are far more exceeding ethics. Experts estimate that around 93% of all car accidents are the result of poor driving, intoxication, and other human factors. Respect your self and others is always the simplest way to a safe driving.

Have fun on a long road is more and more popular and hilarious, do yourself a favor you have acquired the basic

safety measurements and have a respectful heart.

Choose a legitimate Car DVD Player source and make sure your significant others are under no threat while enjoying the ultimate fun. Turn your car into a safely mobile media center!
