

Why we choose an aftermarket car stereo?

As we all know, a car stereo can improve the driving experience. So a good car stereo is necessary. There are so many people who choose to install an aftermarket car stereo than use the original one. Because aftermarket car stereos have many good aspects which original ones can not achieve.

Price

Whether it is a high-grade version with the original car stereo or a slightly cheaper version, it is not comparable in price to the aftermarket car stereo. Aftermarket car stereo is cheaper than the original car stereo.

Appearance

In general, the panel and button design are more user-friendly and the material is slightly better. In addition, the car stereo manufacturer also meets the needs of the users and sets some more commonly used buttons on the panel. The aftermarket car stereo is not only highly compatible with the original car but also more flexible in terms of use.

System and extended functionality

The original car stereo is still based on the WinCE system,

and the system function is very single. For those who have used the smart system mobile phone, it does not necessarily meet all their needs. There are many aftermarket Android car stereos now. At the same time, the superiority of the system makes its extension function more prominent.

[Pumpkin Android car stereos](#) including Android 8.0 and Android 9.0, universal types and specific brands. Pumpkin universal car stereos fit for almost all car models, while Pumpkin car brand-tailored infotainment systems cover most of the Audi, BMW, Opel, Ford, VW, Skoda, Seat and Benz car models from 2000-2016.
